

Summary of 2024 DARTIC Meeting

A meeting of the DARTIC was held on December 12, 2024, starting at 10:00 am. During the meeting, OEHHA staff presented a summary of evidence on the male reproductive toxicity of bisphenol S (BPS). This was followed by a discussion and deliberation on the evidence by the DARTIC. The DARTIC then determined that BPS was clearly shown, through scientifically valid testing according to generally accepted principles, to cause male reproductive toxicity by a vote of 9 (yes) to 0 (no). [BPS was first placed on the Proposition 65 list for reproductive toxicity](#), based on the female reproductive endpoint, on December 29, 2023.

OEHHA had previously issued a [request for relevant information on the potential reproductive toxicity of BPS](#), which opened on March 4, 2022 and closed on April 18, 2022. Prior to the December 12, 2024 DARTIC meeting OEHHA released the hazard identification document entitled “[Evidence on the Male Reproductive Toxicity of Bisphenol S](#)” on September 27, 2024, and initiated a public comment period from September 27, 2024 to November 12, 2024.

Finally, OEHHA staff presented updates on chemical listing via the administrative listing mechanisms, safe harbor levels, and other regulations and litigation since the last DARTIC meeting.

OEHHA was pleased to swear in three new [members of the DARTIC](#); Dr. Martine Culty, Associate Professor of Pharmacology and Pharmaceutical Sciences in the School of Pharmacy at the University of Southern California; Dr. Sandie Ha, Associate Professor of Public Health at the University of California, Merced; and Dr. Kim Harley, Adjunct Professor at the University of California, Berkeley School of Public Health. All three were appointed to the DARTIC by the Governor in 2024.

2024 DARTIC Meeting Agenda

1. [Welcome and Opening Remarks](#)
2. [Swearing in of New Members](#)
3. Consideration of Listing Bisphenol S (BPS) for the Male Reproductive Toxicity Endpoint under Proposition 65:

- [Staff presentation \(slide deck\)](#)
 - Committee discussion
 - Public comments
 - Committee discussion and decision
4. [Staff Updates \(slide deck\)](#)
- Chemical listings via the administrative listing mechanisms
 - Safe harbor levels
 - Update on Section 27000
 - Other regulations and litigation
5. [Summary of Committee Actions](#)
