On July 23, 2021, The Office of Environmental Health Hazard Assessment (OEHHA) initiated a proposed rulemaking to amend California Code of Regulations, Title 27, by adding Sections 25607.48 and 25607.9 to adopt a new safe harbor warning regulation to address the content of warnings for exposure to glyphosate in consumer products. On April 13, 2022, OEHHA published a Notice of Modification to Text of Proposed Regulation that provided amended regulation language and added documents to the rulemaking file. This notice initiated a public comment period that was scheduled to end on April 28, 2022.

At the request of several stakeholders, OEHHA will extend the public comment period for these proposed amendments. The comment period will be extended by 7 days and will now close on **Thursday, May 5, 2022**.
